

WEST COAST AREA: SPECIALIZED TRAINING REIMBURSEMENT

At the discretion of Area Council, guiders can be reimbursed up to 50% of the cost for a *required* specialized training. A maximum of one training per year is eligible. Such trainings may include: wilderness first aid or recertification, canoe or kayak certification, waterfront certification, etc.

Other external trainings may be considered – please obtain pre-approval from Area Council.

To meet the reimbursement requirements, the training must:

- be provided by a recognized external training organization,
- benefit Area members, and
- be completed successfully.

The BC Camping Committee has a Specialized Outdoor Training subsidy that provides 50% of the course cost, up to \$100 once per year. Apply for the provincial subsidy first.

A member cannot be reimbursed more than 100% of the full cost.
